

Net 30 Accounts and Dealer Discounts

Last Modified on 07/12/2024 4:00 pm MDT

Net 30 Accounts (also called Dealer Accounts) can be opened for bona fide aircraft sales and service organizations, schools, colleges and government agencies. Univair will require sales tax exemptions and repair station numbers to set up an account. Schools and colleges must provide a purchase order number when ordering.

Orders are shipped payable Net 30. Accounts must be maintained in good standing in order to continue to receive discounts. Interest is charged on overdue accounts, and the account will be closed if not paid by the due date.

To apply for a Net 30 Account with Univair, please contact us at 303-375-8882 and ask for our sales department. We will require you to submit an application with banking and financial references before we approve an account for you.

Note that our website does not calculate dealer discounts, so you will see the full retail prices when placing your order through www.univair.com. However, your final invoice will be adjusted to include your discount prior to collecting payment.

Univair does not offer Net 30 accounts or dealer discounts to individuals.
