

How We Calculate Shipping Costs

Last Modified on 10/26/2023 3:16 pm MDT

The shipping fees shown during checkout are ESTIMATES only and DO NOT represent what you will be charged. Your exact shipping charges may be MORE or LESS than the estimate. We will adjust your shipping charges (higher or lower) at the time your order is shipped.

Some orders may require multiple shipments based on size, weight, and quantities of items ordered. You will be charged actual shipping costs on ALL packages.

Univair reserves the right to add additional charges to your order for oversize items, hazardous materials, crating charges, export fees, multiple shipments, trucking fees, and any other fees imposed by the carrier. For more information, see [Additional Shipping and Handling Fees](#).

Shipping Quotes

If you need to know shipping costs prior to submitting your order, please contact a Univair representative at our toll free number 1-888-433-5433 during regular business hours for an **estimate**. Please note that in most cases, exact shipping charges cannot be calculated until an order is packed and ready to ship, since shipping costs are based on the size, weight, and number of packages in your order.
