

FedEx and UPS Shipping Costs and Transit Times

Last Modified on 07/15/2025 1:26 pm MDT

The charts below show the starting costs and estimated transit time frames for orders shipped from our Aurora, Colorado location.

Transit times shown here and on Univair's website are taken from FedEx and UPS websites and are estimates only. FedEx and UPS do not guarantee their transit times on **Standard (Ground), 2-day, or 3-day services**, and therefore Univair will not guarantee transit times either. They also do not count weekends (Saturdays and Sundays) or U.S. Federal Holidays as transit days either. USE THESE DELIVERY SERVICES AT YOUR OWN RISK. **Univair will not refund your shipping costs, either fully or partially, if the carrier fails to deliver your order in the specified time frame.**

Freight shipping does not come with a transit time estimate. **Univair will not refund your shipping costs, either fully or partially, if the carrier fails to deliver your order in a timely manner.**

The starting costs shown below are accurate at the time this article was published, and may be adjusted at any time without notice.
